

Quick Start Guide

Thank you for purchasing Capturx!

This quick start guide will walk you through installation and getting started with Capturx for SharePoint software.

Software Requirements for Capturx for SharePoint 2010:

Windows Server 2008 R2. Microsoft Office SharePoint Server 2010 (Foundation, Standard, or Enterprise)

Hardware Requirements:

Follow Microsoft's SharePoint hardware recommendations based on expected site usage. Capturx will require higher than average processor utilization performing handwriting recognition during ink upload.

The download or CD that you receive from Adapx will contain:

- Installation Instructions
- Software User Guide
- Script for readiness checking, software installation, and removal
- Capturx Print Utility Client Software
- Capturx for SharePoint Software in a WSP file
- Microsoft Visual C++ redistributable (required for installation)

Client Software:

Capturx Pen Manager- Required for users who route pen data to servers

Capturx Print Utility- Required for users who print forms from servers

Capturx Forms for Excel- Required for users who publish forms to servers

Installing Capturx for SharePoint 2010

1. Confirm System Requirements.
2. Install Capturx for SharePoint 2.x using the Installation Instructions located in the Capturx for SharePoint CD.
3. Configure client computers with client software (may be shipped separately).
